

Quality and Tradition
SINCE 1983

FERVOUR AND LOVE FOR THE SHOOTING DISCIPLINE, GUIDED BY ENTHUSIASM AND PERSISTANCE HAVE BEEN THE SPIRIT AND THE ESSENCE OF THE BIRTH OF THE TRADE-MARK KING COBRA HOLSTERS.

The company King Cobra Holsters, born in 1983, is a company that with ability has maintained the best handicraft productive characteristics, obtaining a development that has seen the trade-mark grow and

be well-known. A dynamic company that has made significant investments in research and innovation for the quality of their products.

The company is proud of their presence in many countries, with their Know-how and together with their various distributors or partners, are able to supply a direct cooperation of study and design of products, to obtain the best article requested by their client or by their clients market in the range of Law Enforcement, Military and Sport.

In all of their products the company has put the ability and experience matured over many years of work and cooperation with the Police and Security Forces all over the world. From these requirements in the year 2005 we have created a new product line dedicated to them called "Evolution5"

YEAR 2012: KING COBRA HOLSTERS, enters in the sport section of DYNAMIC Shooting, with the new product line "EVOLUTION ONE"

YEAR 2017: KING COBRA HOLSTERS, enters in the DOG world with a new complete range of DOG-TECH products studied for Military and Civil market.

Every customer is in the center of our attention; Thinking, Cooperation and Sharing Knowledge are the basis of a collaboration.

Better is the collaboration Biggest will be the success.

EVOLUTION5 2.0

3

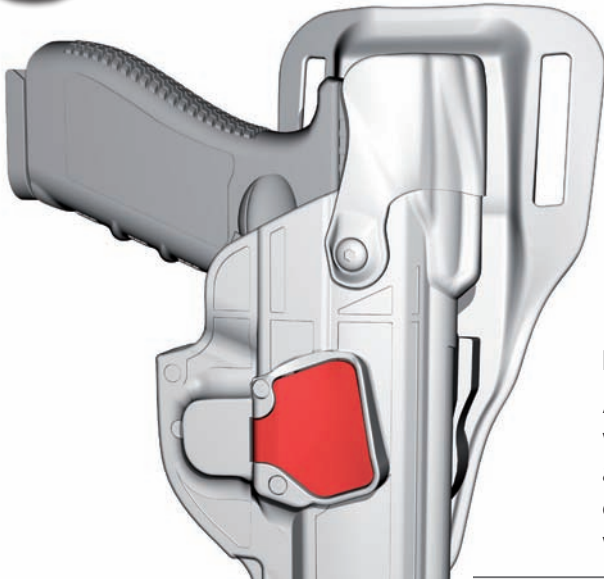

The new line of holsters EVOLUTION5 2.0 in injection molded elastomerized polymer, has been created with a new design, new security and locking systems, new belt loops, new tactical leg plates and several new accessories for the placing of the holster.

Each holster of this new line has different security and locking systems. The elevated characteristics make this holster shock resistant, resistant both to hot and cold temperatures, wear, compression and traction resistant. The insertion and the extraction of the arm with this holster is optimal in any climatic situation, it does not undergo any type of alteration, it does not need any internal lining or similar because it does not have any protruding or visible metal parts.

This holster is composed with fixed, rotating and removable belt loops, in order to obtain several inclination and positions.

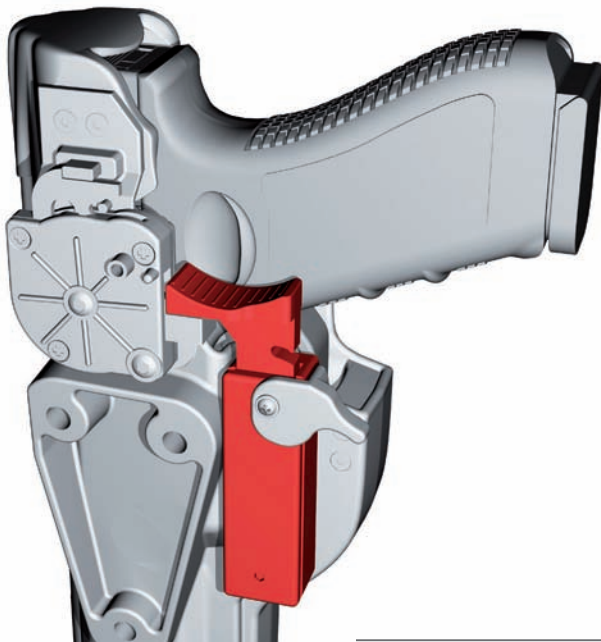

The accurate choice of the raw materials and the advanced productive technology give the EVOLUTION5 2.0 holster a very high technical and esthetic quality.

The security level consents the protection of the arm and at the same time guarantees a quick extraction.

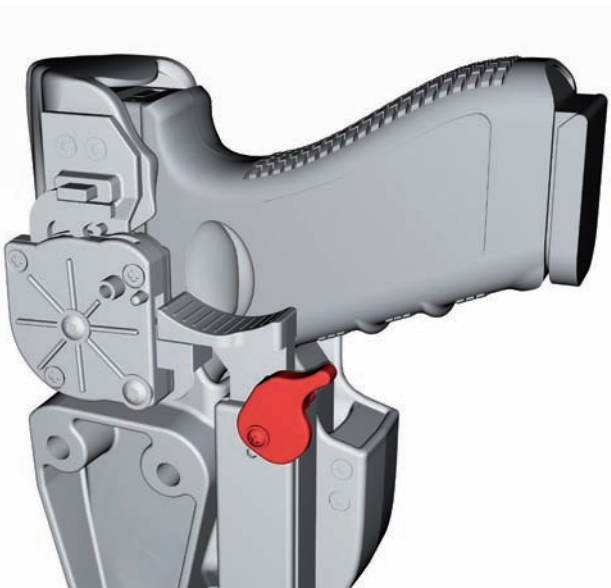

FSIR Fast and Safe Index release

A fast and safe system, very easy to use. When the weapon is inserted in the holster the locking system is activated automatically. This system acts on the trigger guard. A light touch with your index finger releases the weapon immediately.

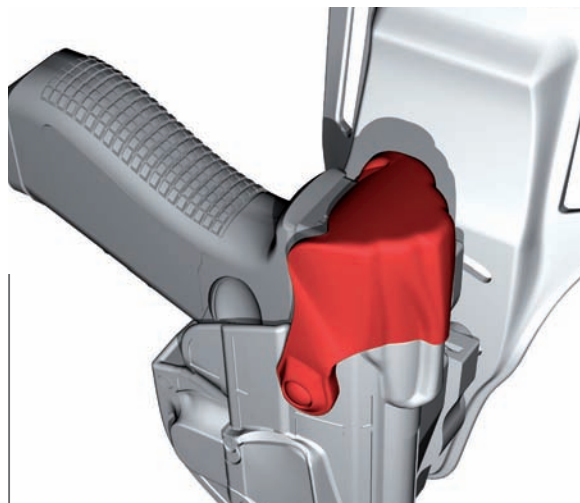

MLM Modular Lock Mechanism

A locking system which is activated at the moment of the insertion of the weapon in the holster preventing the theft. This system acts on the trigger guard. With a simple, fast and instinctive pressure of the thumb the lock system is immediately deactivated.

LS2 Lock System 2

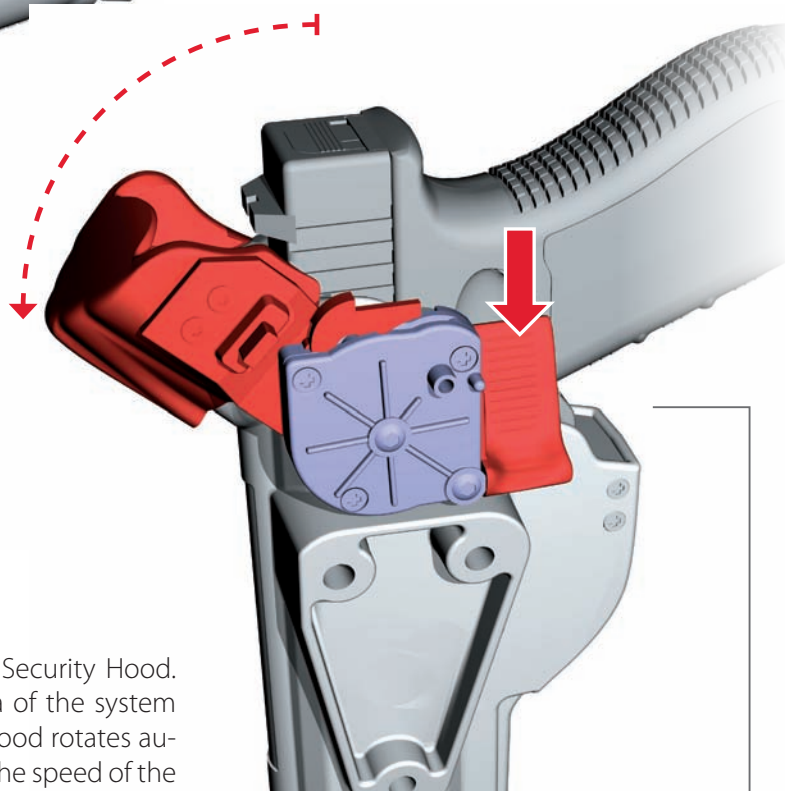

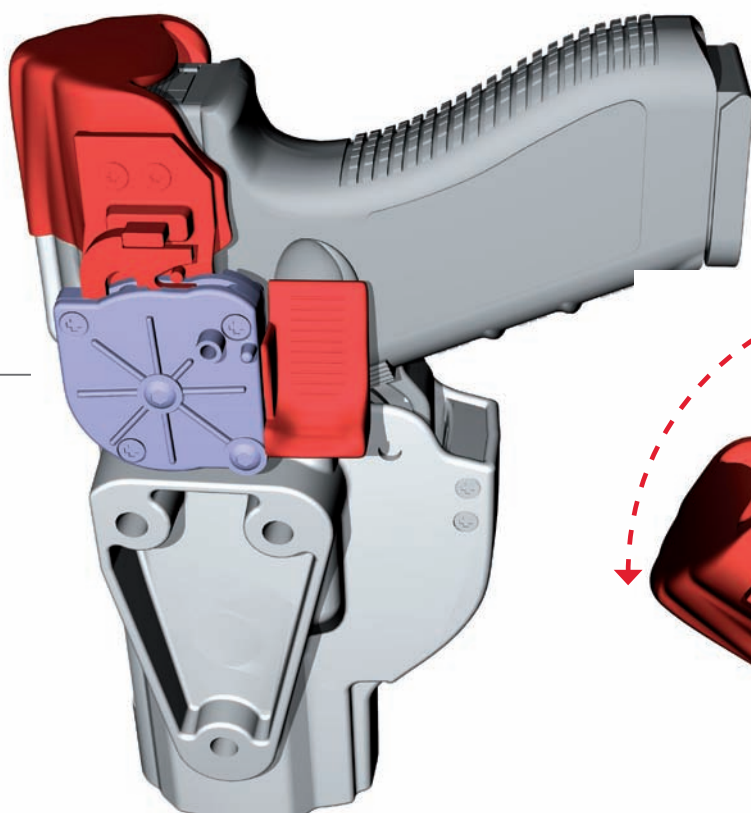

A removable lever that is located under the handle of the arm which acts on the MLM mechanism, if inserted allows a total block of the MLM system.

SH Security Hood

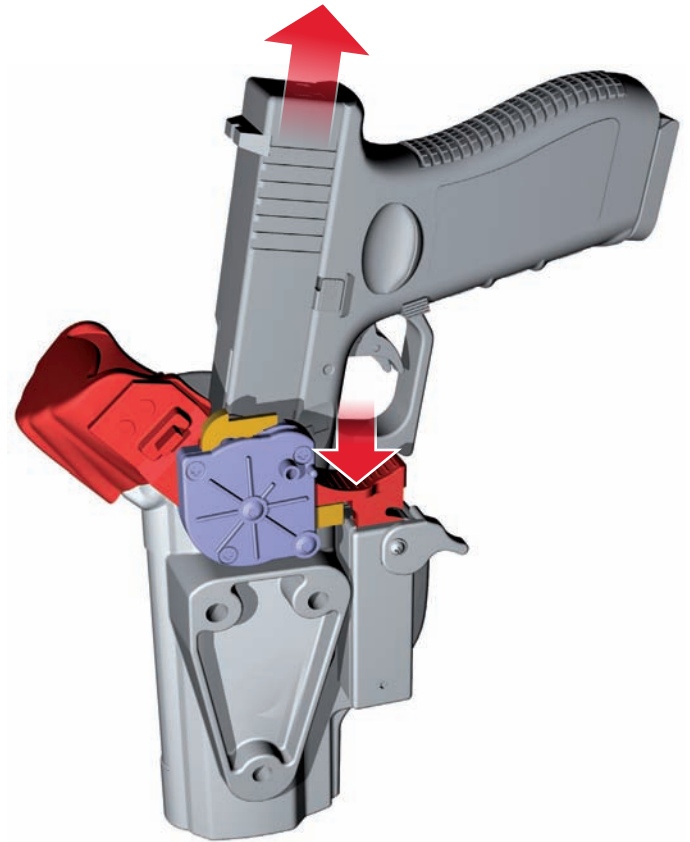

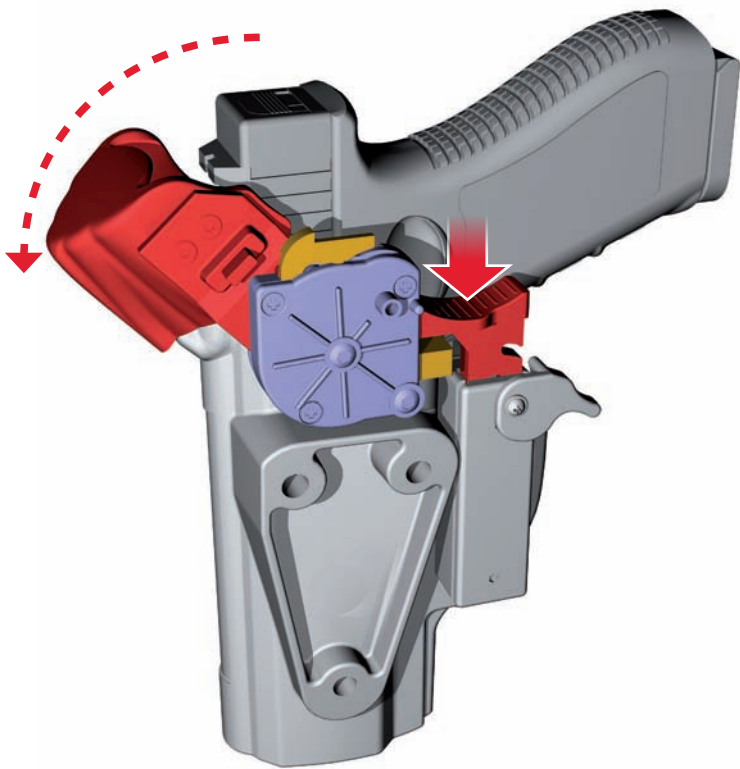

RSC Rear Sight Projection

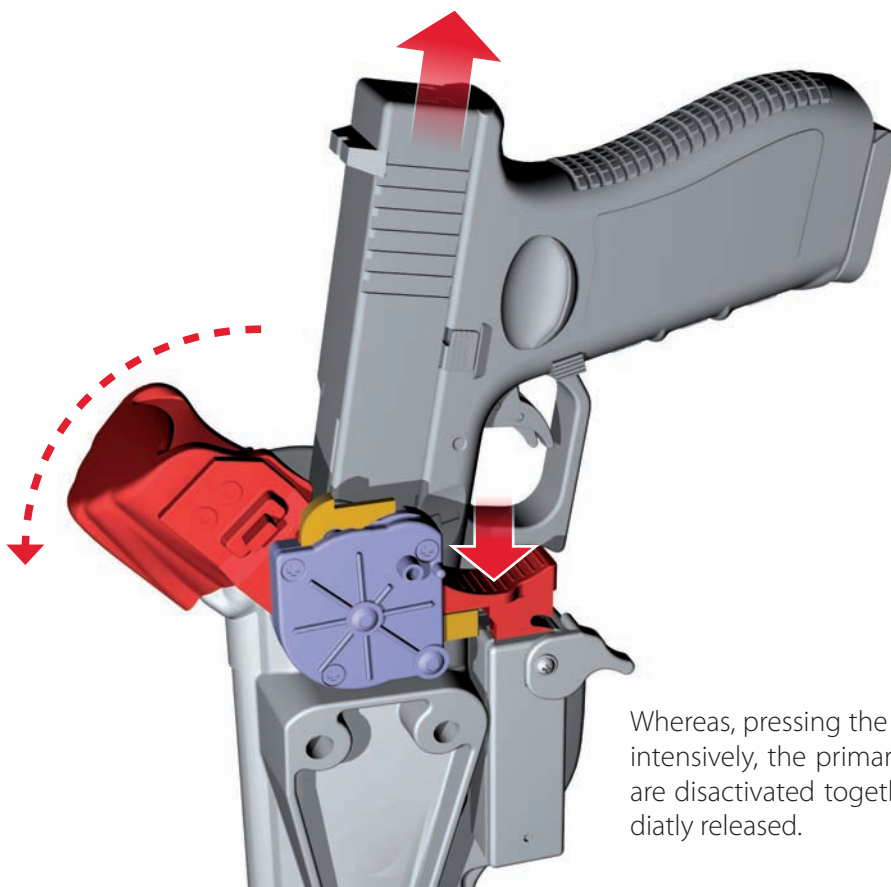

SRR Rapid Rotating System

A fast and secure system which releases the SH Security Hood. With a simple pressure of the thumb on the leva of the system situated on the back of the holster, the Security Hood rotates automatically releasing the weapon, improving also the speed of the extraction

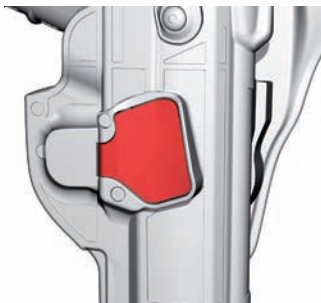

RTL Security system with two retention levels, primary and secondary. The primary security is automatically released, rotating the Security Hood, with a simple pressure of the thumb on the lever of the MLM. At this point the arm is still blocked. Pressing a second time always with the thumb, the system, that acts on the trigger guard, gets immediately disconnected releasing the arm.

Whereas, pressing the lever with the thumb, more intensively, the primary and secondary retentions are disactivated together and the weapon immediately released.

EA08

Level 2

FSIR Fast and Safe Index Release

A fast and safe system, very easy to use. When the weapon is inserted in the holster the locking system is activated automatically. This system acts on the trigger guard. A light touch with your index finger releases the weapon immediately.

55840 BLP Belt Paddle in Polymer

Multi-Positionable. Belt height regulation system. Belt stopper, that does not allow movement of the holster.

EVOLUTION⁵

The holster EVOLUTION5, in its new design, is constructed in one sole piece, in injection stamped polymer. The elevated characteristics make it shock resistant, resistant both to hot and cold temperatures, wear, compression and traction resistant.

The insertion and the extraction of the arm with the EVOLUTION5 holster is optimal in any climatic situation, it does not undergo any type of alteration, it does not need any internal lining or similar because it does not have any protruding or visible metal parts.

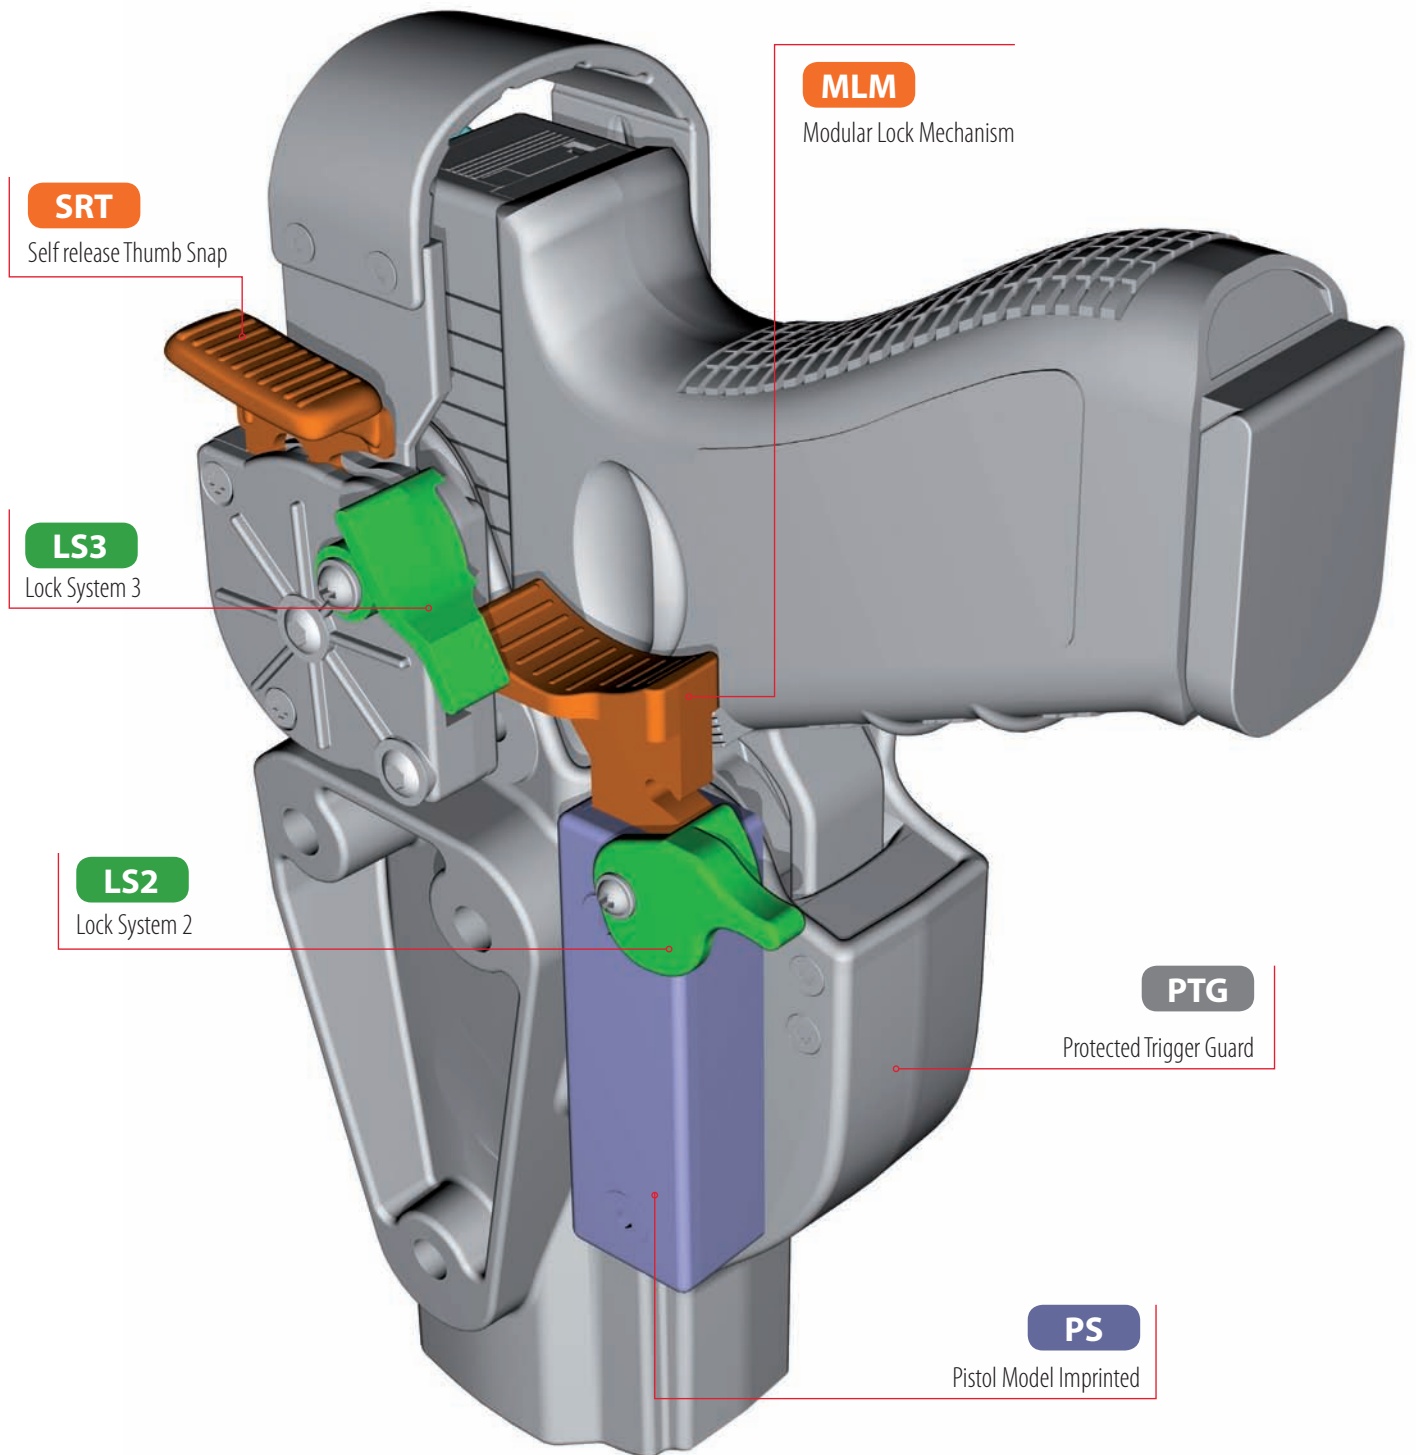

The accurate choice of the raw materials and the evolved productive technology give the EVOLUTION5 holster a very high technical and esthetic quality.

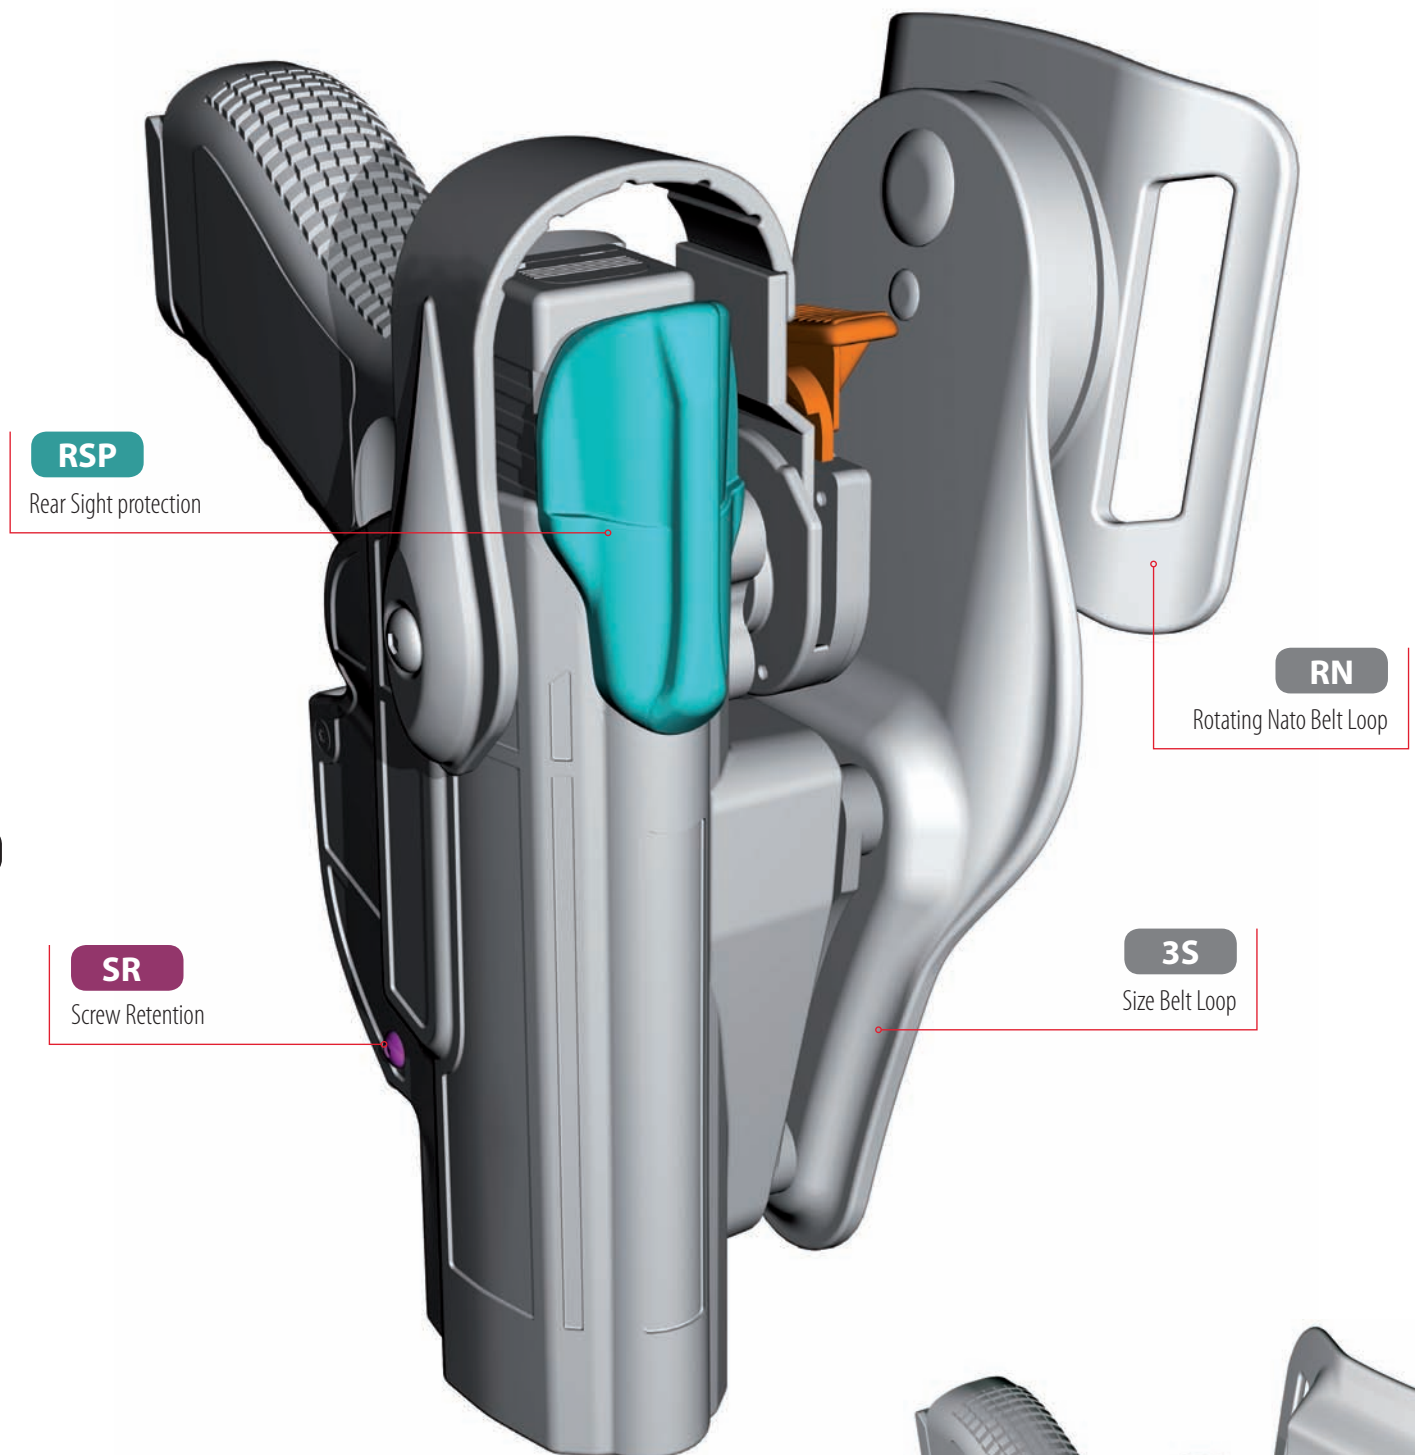

The various EVO5 security levels 2-3-4-, consent the protection of the arm and at the same time guarantee a quick extraction.

The EVOLUTION5 system is composed of fixed, rotating, and removable belt loops, in order to obtain several inclinations and positions.

The patented high rotating function of the belt loop, consents the holster-arm group to be higher, respect to the operators sitting position in a determined way and of at least 180 mm in respect to the vertical position, and can also rotate both ways depending on the needs of the operators. Besides this, it can be applied to the holster with a three-point application, integrated and personalized with a large range of spacers and distance plates, which permit the customisation of the inclination, the height and the distance from the operators body, depending on the operating needs.

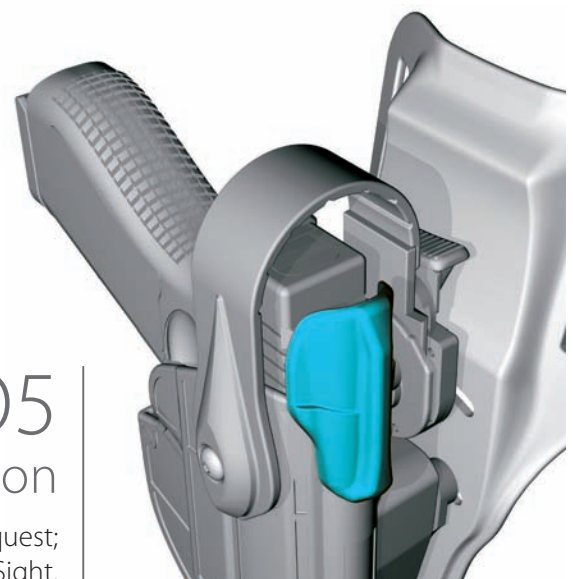

EVOLUTION5: The experience and efficiency in designing, testing and monitoring every productive process always provides solutions, in the operational requirements.

RSP EVO5 Rear Sight Protection

Can be assembled on the holster, upon request;
it consents the protection of the Rear Sight.

SRT EVO5

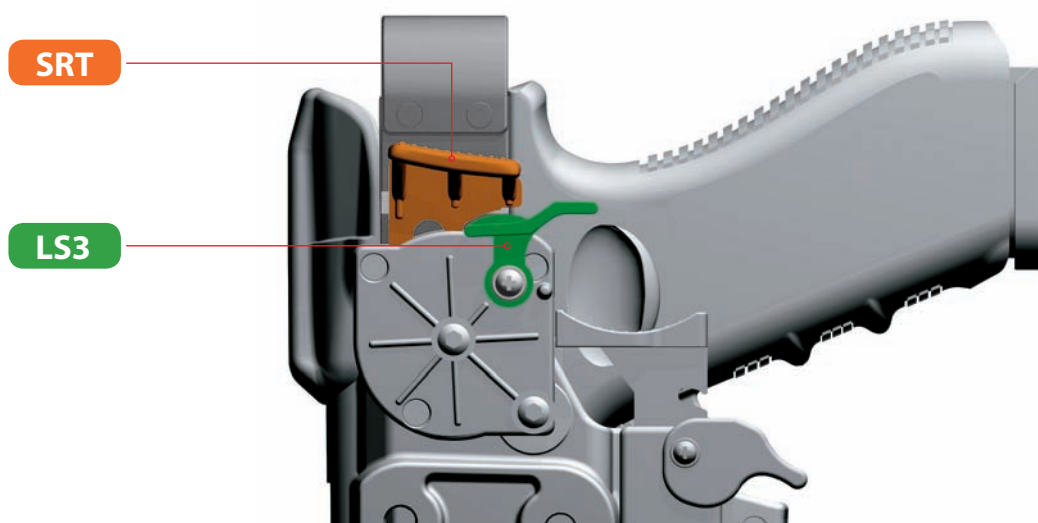

Self release Thumb Snap

A fast and secure system of locking the rotating thumb snap. With a simple pressure of the thumb on the security lock, the rotating thumb snap rotates automatically releasing the weapon smoothly, improving also the speed of the extraction.

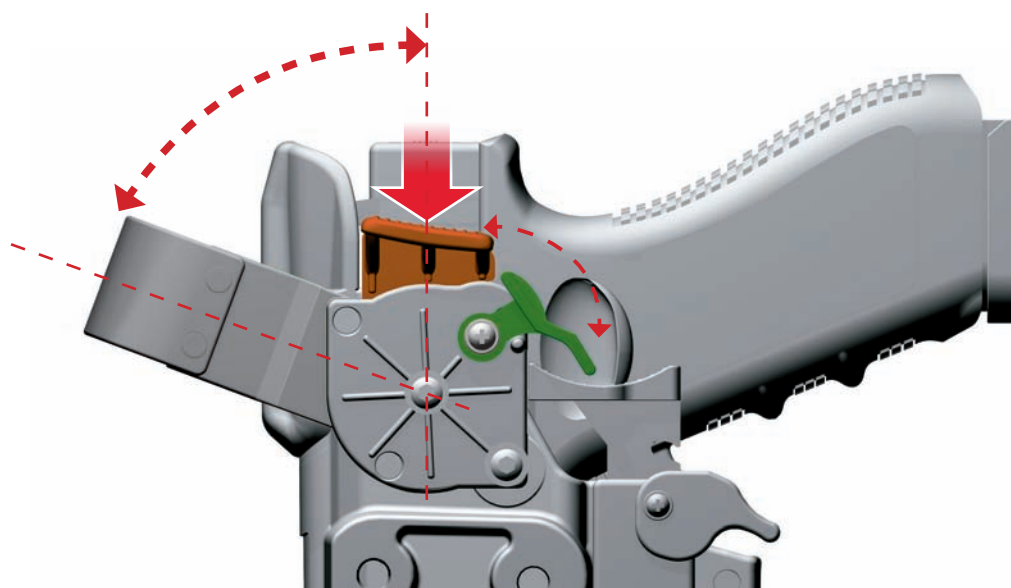

LS3 EVO5

Lock System 3

A further removable security system located on the back side of the SRT (Self Release Thumb Snap), which prevents the accidental opening of the rotating loop and the theft of the weapon.

System Locked

Unlocked System

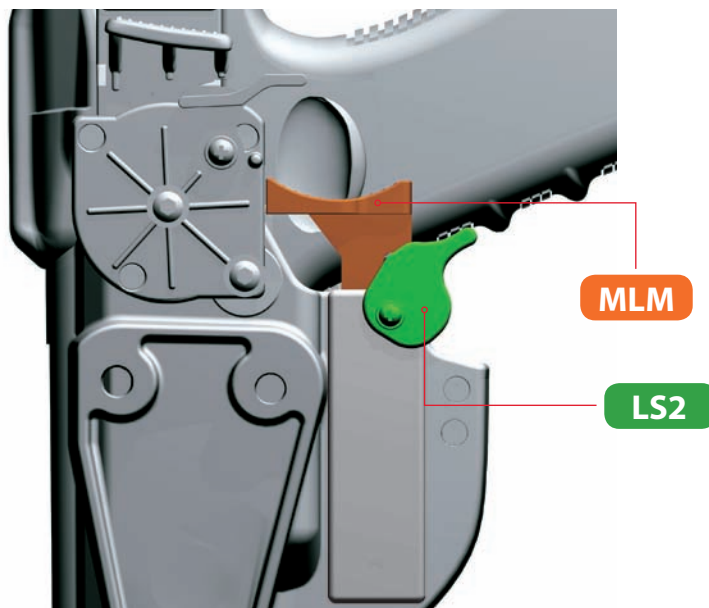

MLM EVO5 Modular Lock Mechanism

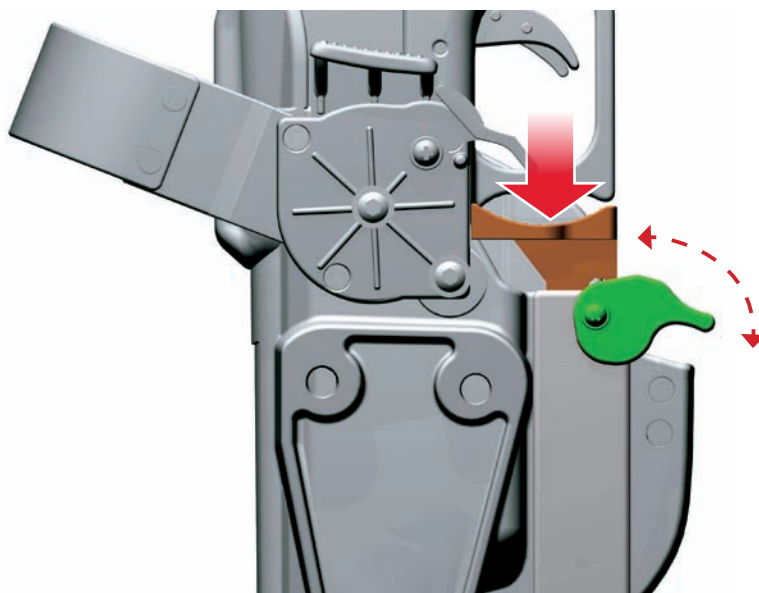

A locking system which is activated at the moment of the insertion of the weapon in the holster preventing the theft. This system acts on the trigger guard. With a simple, fast and instinctive pressure of the thumb the lock system is immediately disactivated.

LS2 EVO5 Lock System 2

A removable lever that is located under the handle of the arm which acts on the MLM mechanism, if inserted allows a total block of the MLM system.

System Locked

TELLUS

Level 3

55810 BLM Belt Loop Medium Position

SQS System

Female back

Female front

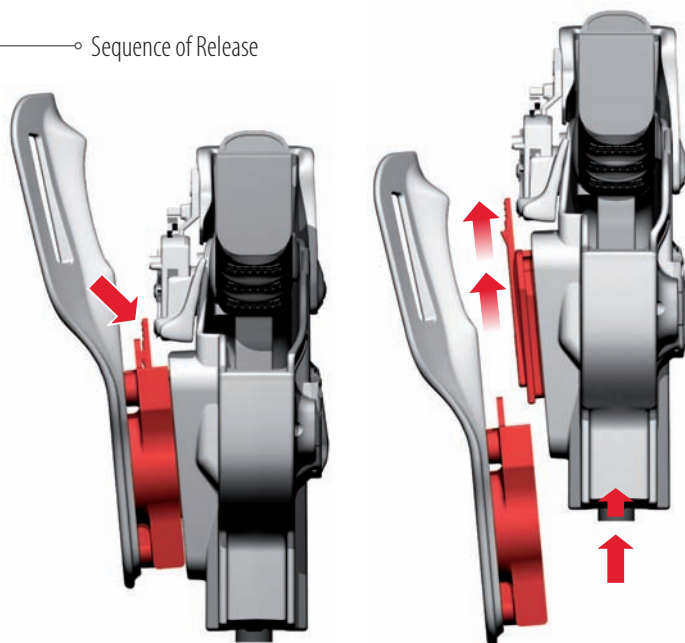

Male

55950 SQS

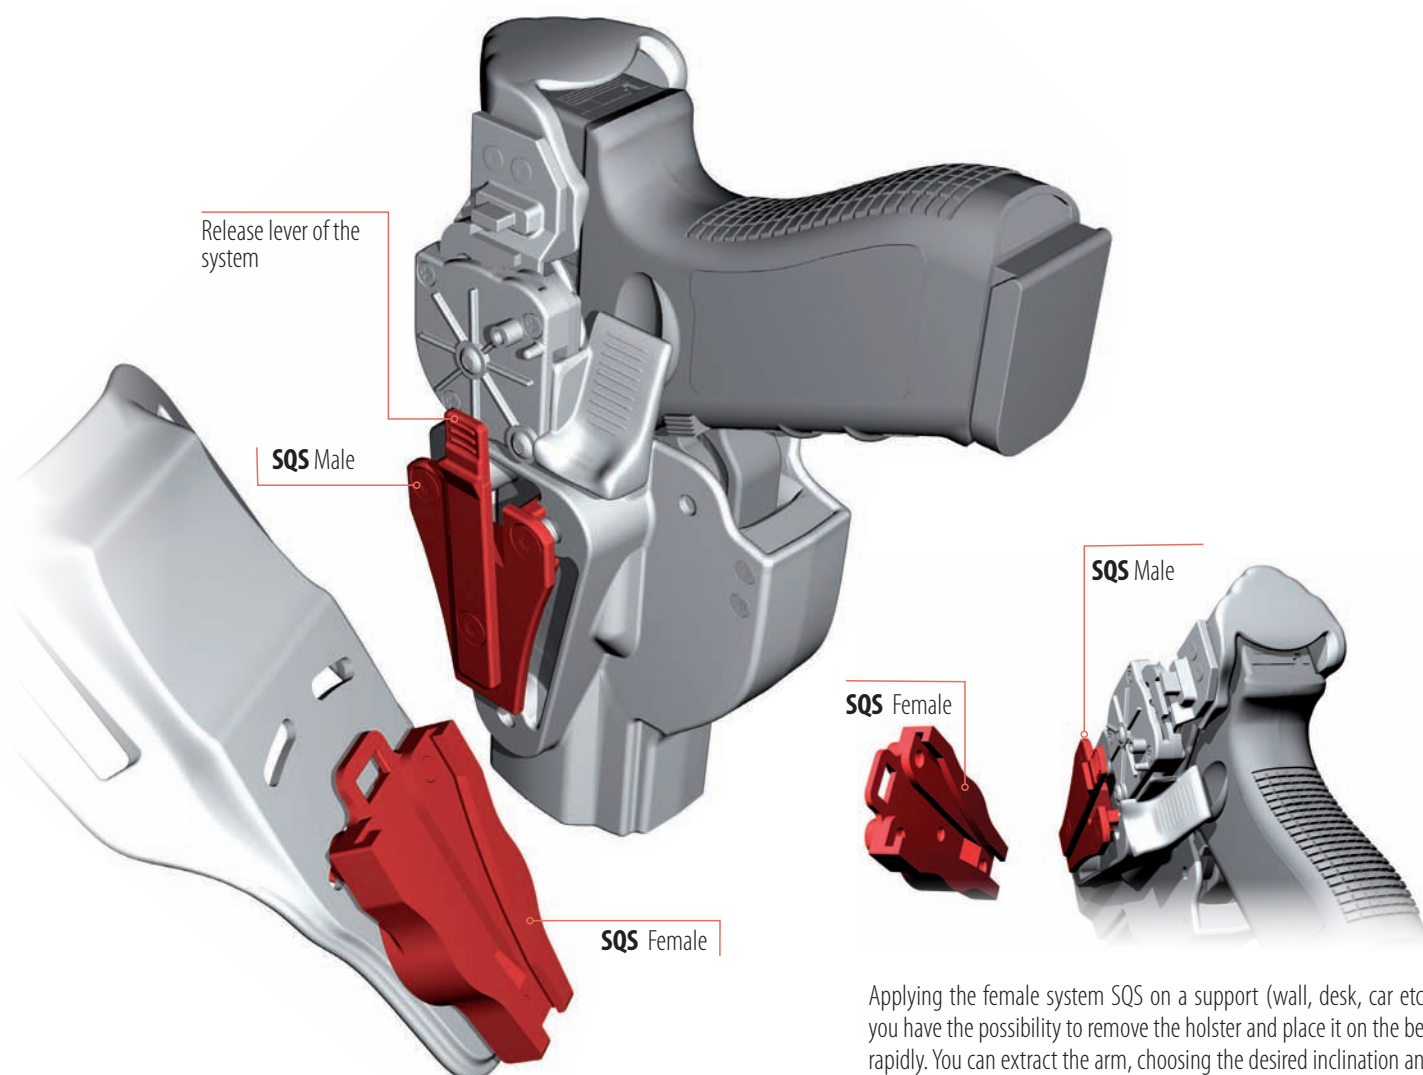

Very easy to use, endowed with a security block. It also has the rotating plate system which, where applied, permits you to make your accessory positionable. To obtain this you have to tighten or loosen the screw in the center of the Plate. This system is in two parts, the male part is always applied to the holster, the female part to the accessory.

Sequence of Release

1. Press the locking lever

2. Slide the holster upwards

Applying the female system SQS on a support (wall, desk, car etc.) you have the possibility to remove the holster and place it on the belt rapidly. You can extract the arm, choosing the desired inclination and position very quickly.

55960 Modular Adaptor Plate

Plate with SQS system.
Permits 5 different positions.
(0° - 40° - 90° - 140° - 180°)

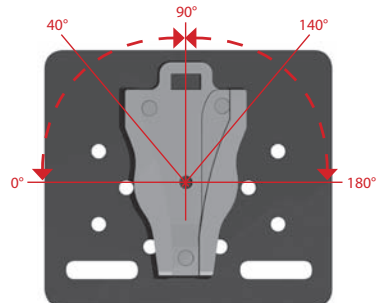

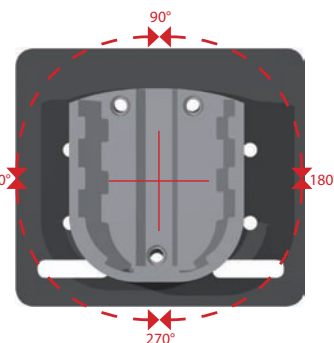

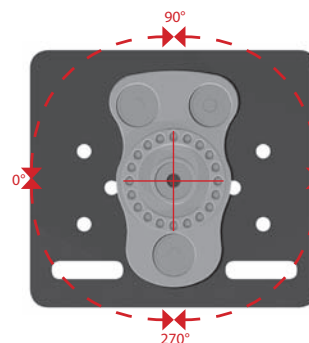

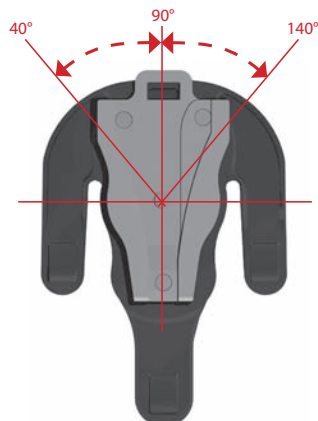

Plate with PRP and RRD system. Permits a total free 360° rotation.

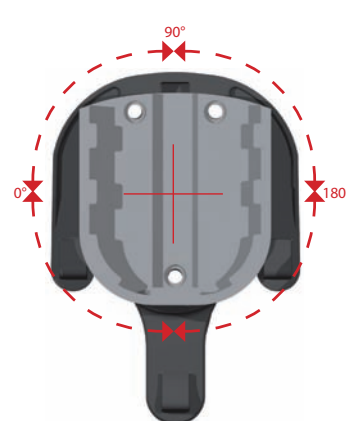

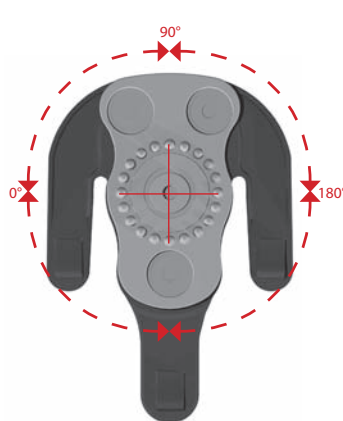

Hard flexible molle adaptor plate. Multi-positions for holsters. On this plate you can apply the PRP Positionable rotating plate and the SQS system for the application of accessories. It is possible to place SQS and PRP together on this plate, so that you can have the rotation together with the possibility of the SQS system that allows you to release the holster from the plate.

55970 PMP Molle Plate System

PMP with SQS system.
Permits 3 different positions.
(40° - 90° - 140°)

PMP with PRP and RRD system. Permits a total free 360° rotation

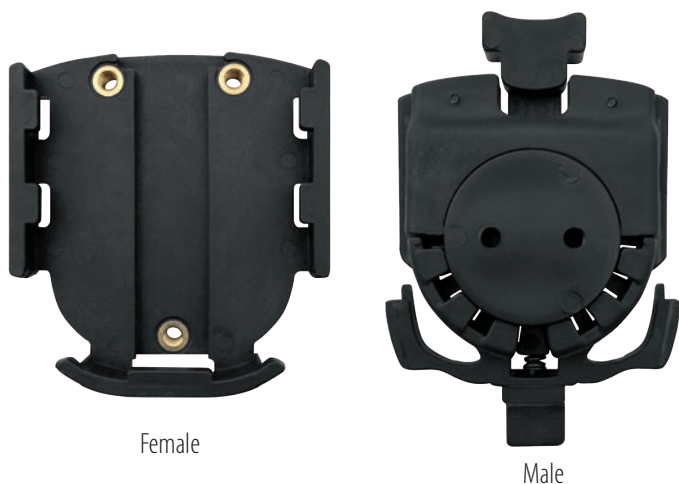

Ergonomic Molle Plate in injection moulded Polyamide. Very simple to use and lightweight. On this plate you can apply holsters, accessories and SQS system. It can also be used together with our PRP Positionable Rotating plate. Ideal to be used on a tactical vest with Molle System.

CORDURA
P R O D U C T S

CORDURA fabric is what many of the most respected brands, retailers and militaries around the world use when they need to make a product that is durable, versatile and reliable. KING COBRA HOLSTERS introduced products with cordura fabric in 1994. CORDURA Classic fabric features tear and abrasion resistance and long lasting durability. CORDURA Classic fabric is constructed with qualifying yarns which are woven in accordance with Invista's approved fabric standards.

Benefits:

Stylish durability and exceptional strength-to-weight ratio.

- Resistant to tears, scuffs and abrasions.
- Designed for living, built to last.
- Built-in colorfastness.
- Air jet texture for high abrasion resistance.
- Meets Military specifications.
- Original Classic CORDURA fabric look.

P R O D U C T S

ALTA QUALITÀ ITALIANA

For the production of all of their leather articles the KING COBRA HOLSTERS company uses leather with vegetable tanning which is still today the most classical, the most traditional, the most recognisable, the only one able to give leather unique characteristics, the most natural, and the most environmental-friendly. It is able to combine comfort and appearance, fashion and tradition, uniqueness and versatility of the product to be realised.

KL88 DOG LEASH IN 100% ITALIAN PA

Soft and resistant, metal snap-hook.

Size: 2,5x110cm

Available colours

KL90 TRAINING DOG LEASH IN 100% ITALIAN PA

Soft and resistant, metal accessories.

Size: 2,5x200cm

Available colours

KC24 ADJUSTABLE DOG COLLAR IN 100% ITALIAN PA

Soft and resistant, buckle and loops in polymer, welded metal ring for leash.

Size: 2,5x60cm

Available colours

KL92 UNIVERSAL DOG LEASH FOR CAR SAFETY BELT

In 100% Italian PA, soft and resistant, loop in polymer, metal snap-hook.

Universal metal attachment for car safety belt.

Size: 2,5x85cm

Available colours

KL98 DOG LEASH IN WAXED LEATHER, HAND SEWN

Rounded edges, metal snap-hook.

Size: 2,5x100 cm.

Available colours

KLT100 DOG LEASH IN 100% ITALIAN PA

Large hard rubber handle to minimize stress on your hand. Internal elastic rubber keeps the shape and effectiveness. Metal snap-hook with quick release for the dog. Polymer snap-buckle that opened obtains the extension of the leash.

Size: 35cm minimum extends upto 100cm maximum.

Available colour

KCT130 DOG COLLAR IN 100% ITALIAN PP

With handle and security buckle. Wide 50 mm. Loop patch for attachment of badges with hook back. 3,5 cm. D-Ring for leash or snap-hook.

Sizes: **S**(from 37 to 54 cm) • **M**(from 47 to 64 cm) • **L**(from 57 to 74 cm)

Available colour

128

KHT510 BALLISTIC DOG HARNESS

Harness in 2 layers of Cordura, carry handle in rubber, n° 2 welded metal rings, adjustable belly band with n° 4 polymer snap-buckles and velcro, adjustable chest band with n° 2 security buckles in polymer and velcro, which is also connected to belly band. On each side a velcro loop patch to attach badges etc. with Velcro hook back. Ballistic Protection.

Sizes available:

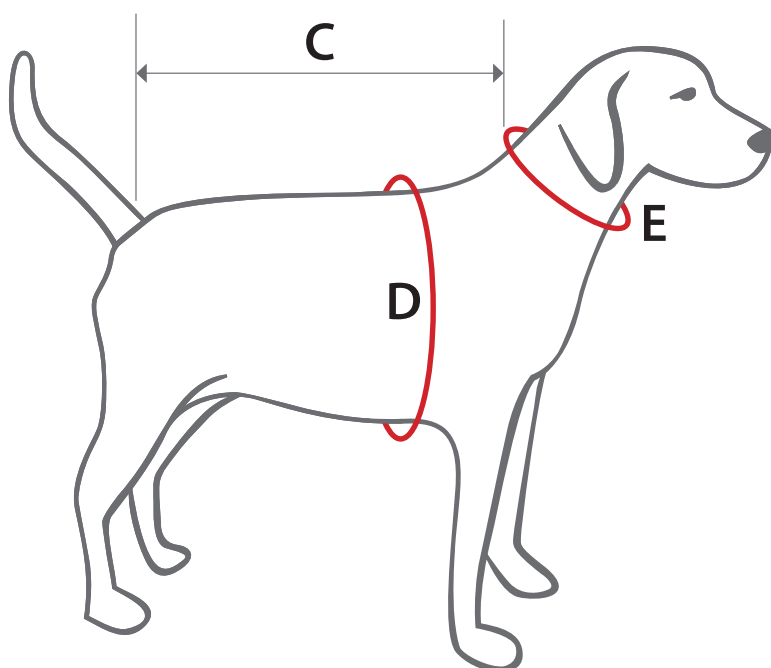

S for circumference 58 to 74 cm • **M** for circumference 64 to 85cm • **L** for circumference 71 to 99cm • **XL** for circumference 82 to 116cm

Available colour **BLACK**

Level II - NIJ 0101.04	
Ballistic limit (V50) 1.1g FSP, STANAG 2920	≥ 520 m/s
Average BFS (Back Face Signature - trauma) 9mm	≤ 23 mm
Average BFS (Back Face Signature - trauma) .357 Mag	≤ 34 mm
Anti-stab resistance (S1 blade, 15J, according to NIJ 0115.01)	≤ 20 mm penetration
Coverage area	0.31 m ²
Ballistic material	DSM Dyneema®
Panel thickness	5 mm
Panel weight	1.35 kg

Level IIIA - NIJ 0101.04	
Ballistic limit (V50) 1.1g FSP, STANAG 2920	≥ 520 m/s
Average BFS (Back Face Signature - trauma) 9mm	≤ 23 mm
Average BFS (Back Face Signature - trauma) .44 Mag	≤ 34 mm
Anti-stab resistance (S1 blade, 24J, according to NIJ 0115.01)	≤ 20 mm penetration
Coverage area	0.31 m ²
Ballistic material	DSM Dyneema®
Panel thickness	5 mm
Panel weight	1.35 kg

MEASURING FOR DOG HARNESS

C • Length cm

D • Chest Circumference cm

E • Neck Circumference cm

130

KHT500 DOG HARNESS

In 2 layers of mesh which allows perfect perspiration, suitable for training and duty. Carry handle closable to hold the dog or lift it up in a perfect horizontal position. Security buckle on belly band. N° 2 welded metal D-Rings for leash or snap-hooks. On each side a Velcro loop patch to attach badges, etc with Velcro hook back. Pressure is perfectly distributed over the chest not only on the dogs neck.

Sizes available:

S For circumference 58 to 74 cm • **M** For circumference 64 to 85cm • **L** For circumference 71 to 99cm • **XL** For circumference 82 to 116cm

Available colour **BLACK**

KHT530 DOG HARNESS

External material in resistant polyester, water-proof and scratch-proof. Internal material in Air-tech which allows a perfect perspiration. Adjustable belly band with polymer security buckle, adjustable chest band with reflective band for a perfect visibility. Closable carry handle in rubber on top part together with welded metal ring for dog leash. On each side a Velcro loop patch to attach badges etc. with Velcro hook back. Sizes available:

S for circumference 58 to 74cm • **M** for circumference 64 to 85cm • **L** for circumference 71 to 99cm • **XL** for circumference 82 to 116cm

Available colour **BLACK**

132

KHT540 DOG HARNESS

Realized in PP tape h 5cm. Adjustable length on belly with polymer security buckle and on chest. Soft handle on top side with welded metal ring for leash. Stopper to close handle or metal ring. On each side a Velcro loop patch to attach badges etc. with Velcro hook back.

Lightweight and comfortable.

Sizes available:

S for circumference 58 to 74cm • **M** for circumference 64 to 85cm • **L** for circumference 71 to 99cm • **XL** for circumference 82 to 116cm

Available colours

133

KHT550 DOG HARNESS FOR WATER RESCUE

External layer in Air-tech Internal side in mesh. This combination allows a perfect perspiration. Adjustable belly band with Velcro. Welded metal ring for leash attachment. Polymer ring. Adjustable chest band. Reflective band for major visibility. On each side a Velcro loop patch to attach badges etc. with velcro hook back.

Sizes available:

S for circumference 58 to 74cm • M for circumference 64 to 85cm • L for circumference 71 to 99cm • XL for circumference 82 to 116cm

Available colours

KMT310 DOG MUZZLE

Reinforced nylon material. Quick release buckle. Good ventilation suitable for training and duty. Extra reinforcement in the front area. Sizes available: XS • S • M • L

Available colour **BLACK**

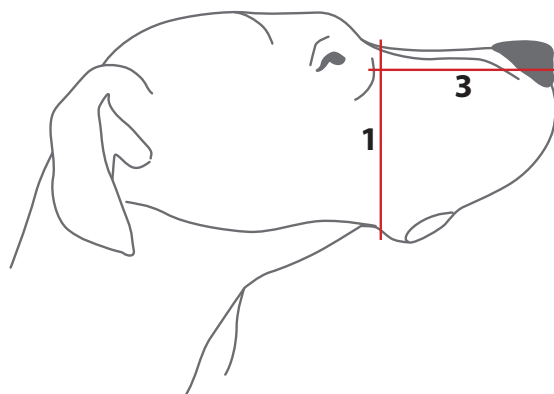

KMT320 DOG MUZZLE

Cordura material. Can be folded flat. The muzzle can be placed and removed very quickly by means of the elastic band and plastic knob. Good ventilation. Sizes available: XS • S • M • L

Available colour **BLACK**

FIT CHART DOG MUZZLES

SIZE	1 Depth of Muzzle	2 Width of Muzzle A-B	3 Length of Muzzle
XS	10cm	A 6cm - B 9cm	7cm
S	11cm	A 6cm - B 10cm	8cm
M	13cm	A 8cm - B 11cm	9cm
L	14cm	A 8cm - B 12cm	10cm

1 Depth of muzzle: The widest part of the dogs muzzle, under his eyes.

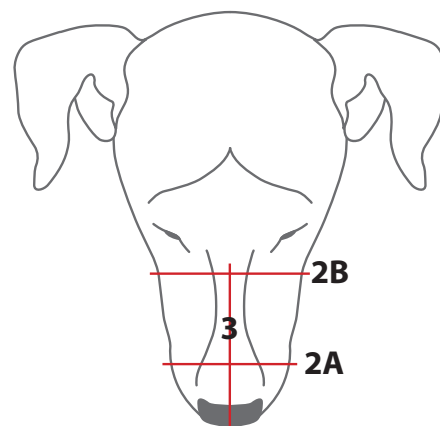

2 Width of muzzle: **A** The distance between the cheek bones, under his eyes.

B The width of the dogs muzzle (from dog to dog it can be much thinner than the Width A)

3 Length of Muzzle: From the point of his nose upto under his eyes.

CORRECT SIZE: The muzzle always depends on the size of the dog and the length of his muzzle. We suggest that it is about 3 cm. deeper than the dog's muzzle, so that the dog can move his mouth internally. The width of the muzzle should be the same as the dog's muzzle so that it does not move. The length is better if longer than the dog's muzzle. However a dog muzzle, if you have a doubt, is always preferable to be wider than too tight.

OUR DOG MUZZLE IS AVAILABLE FOR: GERMAN SHEPARD • MALINOIS • SIMILAR SIZE DOGS

Warnings

When placing the pistol into the holster, especially for the first time, support the pistol hammer with your thumb and insert it carefully. We suggest to check that the firearm and holster chosen are compatible. The articles can be changed in any moment without communication. The colours and the objects are only indicative and can also not correspond to reality.

Key of Symbols

Pull-The-DOT is a heavy duty, three sided locking snap fastener that is built to withstand extreme pressure on three sides without unlocking. When pulled on the fourth side where the Pull-The-DOT trademark and indentation appears, the fastener releases instantly.

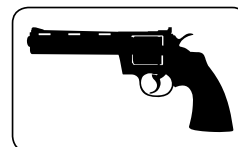

ALL HOLSTERS ARE AVAILABLE FOR RIGHT AND LEFT HAND.

Ambidextrous

AVAILABLE FOR AUTOMATIC PISTOL

AVAILABLE FOR REVOLVER PISTOL

AVAILABLE FOR ARMS WITH GLOCK LIGHT, TLR1 & TLR2

See price list for further description and articles not illustrated.
